A TRIBUTE TO ALL OUR GRADUATES  
WHO HAVE SERVED IN THE MILITARY

## LSN Graduates in Military Uniforms

---

The United States Cadet Nurse Corps was created in 1942. Under the Cadet program, the nursing course was accelerated to two and one-half years. Having completed all formal classes, students were available the last six months for essential military or civilian nursing if needed. Sixty-nine students at Lutheran were enrolled in the course which terminated in 1948.
